

Datasheet

Terminal Box (PL-TUB)

Description

The PL-TUB series boxes are terminal boxes designed for variable air volume applications (with or without flow sensor). Also available with the PL-FSD. Please refer to the PL-FSD Datasheet.

Characteristics

- Galvanized steel housing, satin finish, 0.8 mm (22 gauge)
- 12.5 mm (1/2") internal fiberglass acoustic insulation covered with an acrylic layer and fiberglass reinforcement. The insulation complies with the following standards: NFPA-90A & 90B, SMACNA, Can/ULC S102-M88 and CGSB 51 GP-11M
- Single blade, dual sensity control damper with Polyolefin insulation seal
- "S" shaped output joint
- 12.5 mm (1/2") shaft compatible with most actuators

Technical Specifications

Model	Air Flow CFM (l/s)	Velocity FPM (m/s)	A Inlet Diameter	B Width	C Height	D Length	Weight LBS (kg)
PL-TUB05	130 (60)	953 (4.84)	5" (127mm)	12" (305mm)	8" (203mm)	6.25" (158.75mm)	13 (5.90)
