Prolon ProPacks, the Grab-and-Go Solution!

Increase efficiency, streamline your workflow, and complete installations faster with our application specific ProPacks!

The Prolon ProPacks are designed for HVAC contractors who prioritize efficiency and precision in every installation. These grab-and-go kits are equipped with all the essential components needed to streamline the most common HVAC installations, ensuring that you have exactly what you need when you need it.

By choosing the Prolon ProPacks, you're choosing a solution that takes the guesswork out of the job, providing everything necessary for a smooth, hassle-free installation. Trust Prolon to help you complete each project with the confidence that it will be done right the first time, every time.

The ProPack Advantage

Improved Efficiency

- All components are ready to go, speeding up project initiation and completion times.
- Eliminate emergency supply runs for forgotten parts , keeping projects on schedule.

Consistency and Reliability:

- Reliable, fully-compatible components ensure repeatable performance every time.
- Standardized pre-selected kits minimize errors and reduce project call-backs.

Simplified Inventory Management:

- Less need to stock unneeded parts, saving space and reducing costs.
- Streamline inventory and simplify restocking with our easy to order ProPacks.

Available ProPacks

Pressure Independent Zone - VAV

- PL-VC2000-PI Controller
- PL-DT-T6 Duct Temp. Sensor
- PL-T1000 Wall Sensor
- Instructions & Wiring Diagram

Single-Zone Rooftop - RTUS

- PL-M2000-RTUS Controller
- PL-T200 Wall Mounted Sensor
- PL-DT-T8 Duct Temp. Sensor (Supply/Return)
- PL-OA-T OA Temp. Sensor
- PL-APS Fan Proof D/P Switch
- Instructions & Wiring Diagram

Zoning Rooftop –RTU

- PL-M2000-RTU Controller
- PL-DT-T8 Duct Temp. Sensor (Supply/Return)
- PL-OA-T OA Temp Sensor
- PL-APS Fan Proof D/P Switch
- PL-LPT-LCD Static Pressure Transmitter
- PL-LPT-SPT Barbed Tip for LPT
- Instructions & Wiring Diagram
